

Positioning guardrails — read first

The shared source of truth for every Founding Cohort sales asset. Facts here are pulled from the official Colaberry design system (AI Accelerator brochure + one-pager). If an asset disagrees with this page, this page is wrong or the asset is stale — reconcile before using either.

The offer, in one place

Product	AI Systems Architect Accelerator. A membership built around a 12-week, project-based program. Powered by Anthropic + Claude Code.
Model	One membership includes everything: all four Architect Intensives, Anthropic Architect certification prep, a full-time internship experience, and guided GitHub portfolio projects. No separate course fees.
Pricing	\$149/mo billed annually (best value, founding rate) · \$199/mo monthly (cancel anytime). Confirmed
Founding offer	Founding Cohort capped at 40 seats. Founding members lock the \$149/mo rate for as long as their membership stays active, even as the price rises for later cohorts.
Schedule	4 hours live per week: Monday Architecture Day (2h) + Thursday Build Day (2h).
Dates	Free Open House Thu Jul 16, 2026 · Founding Cohort kickoff Thu Jul 23, 2026 · Architect Expo early October 2026.
Refund (proposed)	Monthly: cancel anytime, access through the paid month, no partial-month refund. Annual: 14-day money-back window from the Jul 23 kickoff, then non-refundable but membership stays active the full year and the founding rate stays locked. Drafted — pending Ali's final approval
Outcome	A deployed AI system, a GitHub portfolio, and the Anthropic Architect certification. "Anthropic certifies knowledge; Colaberry certifies capability."
You'll build	Business Workflow Assistant + reusable AI Skills · multi-agent AI team + Enterprise Prompt Library · a working MCP server · a complete Solution Architecture Package.
Who it's for	Career changers and working professionals comfortable with basic software concepts (git, command line) who have a business problem to solve. No professional engineering background required.
One CTA	training.colaberry.com — claim a founding seat. Same CTA on every asset.

Voice + brand lines

- "Most people consume AI. Very few learn to build with it."
- "Learn from Anthropic. Build through Colaberry. Deploy in the real world."
- "Arrive with an idea. Leave with a deployed system."
- Voice: warm, credible, sentence case, speak to "you," lead with proof. No emoji. Cherry-red is the constant accent.

✓ Do say

- Lead with the \$149/mo founding rate and the 40-seat cap.

✗ Do not say

- Do not lead with "\$499 per intensive" or a "\$1,497 bundle." That model is superseded.

- Frame it as a membership, not a course you pay tuition for.
- Sell the outcome: deployed system + portfolio + certification.
- Use the dates Open House Jul 16 / kickoff Jul 23 consistently.

- Do not use the old Jul 10 / Jul 13 dates. Open House is Jul 16; kickoff is Jul 23.
- Do not invent a phone number or a cohort size other than 40.
- Do not promise specific salary or job outcomes.

✔ **Confirmed by Ali (2026-06-25)**

1. **Pricing — confirmed.** \$149/mo annual founding rate · \$199/mo monthly.
2. **Dates — confirmed.** Free Open House Thu Jul 16, 2026; Founding Cohort kickoff Thu Jul 23, 2026; Architect Expo early October.
3. **Public / checkout name — confirmed.** "AI Systems Architect Accelerator" stays.
4. **Certification — confirmed.** "Anthropic Architect certification."

One open item: the **refund / cancellation terms** above are drafted by Colaberry and **pending Ali's final approval**. Reps should confirm before quoting them verbatim to a prospect.
