

Half-page horizontal ad mockups. 5 visual directions. Red as the punch color, per David's note this morning.

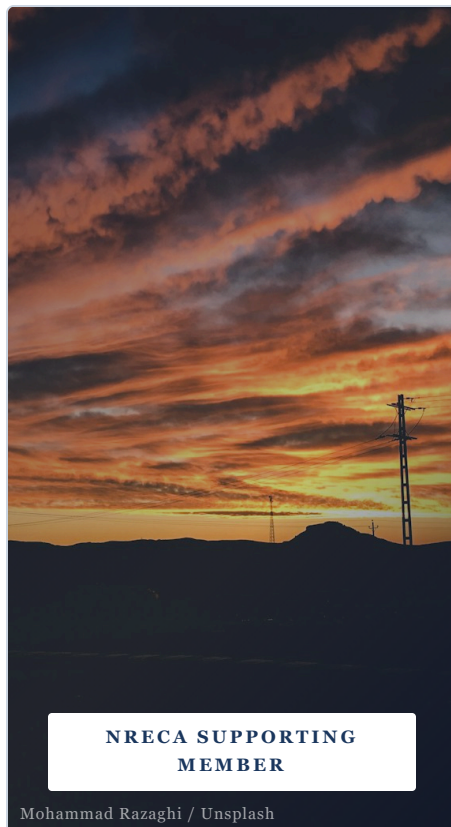

For Ali review before sending to David + Ram. David booked half-page, 4-color, horizontal. Copy deadline Thursday EOD. Each mockup below is at trim aspect ratio (1.54:1) and uses real typography, colors, and layout - not ASCII sketches this time. Pick one (or remix two) and tell me what to change.

From David's response (2026-06-02 morning): "I've booked a half page, four color, horizontal ad. All copy must be uploaded by Thursday evening at the latest. We'll need to pack a punch ... what attracts our eye's as readers? My thought is red - so lets see 'what' in red can be integrated into the ad for the 'punch'."

MOCKUP 1

SUGGESTED: RHP opp. Co-op People / Co-op Forum
RED ELEMENT: Diagonal "Trusted Co-Op Partner" stamp

Crew Productivity

NRECA SUPPORTING
MEMBER

Mohammad Razaghi / Unsplash

FIELD-GRADE AI FOR DISTRIBUTION CO-OPS

Your linemen shouldn't be writing reports.

- + Voice-dictated outage reports. 90 seconds per truck-roll.
- + OSHA + NESC forms auto-drafted from the work order.
- + Tribal knowledge captured before journeymen retire.

colaberry.ai/co-ops · David Lahme, 603-8

TRUSTED
CO-OP PARTNER

Mood: Patagonia field-gear, not SaaS. Cream + navy + gold; red is the diagonal stamp only - eye-catch in a sea of utility ads.

Photography: commissioned or NRECA archive lineman silhouette at golden hour. **Print risk:** 30pt headline drops to ~28 at half-

page; still readable.

YOUR FEEDBACK ON MOCKUP 1

☐ **Make this the finalist** ☐ **Keep, push to production** ☐ **Keep with edits** ☐ **Drop**

Specific edits: headline rewrite, swap the photo, add/remove the NRECA badge, change the stamp text...

MOCKUP 2

AI in Plain English

SUGGESTED: RHP opp. Co-op Forum

RED ELEMENT: Italic CEO questions + red CTA button

INDEPENDENT · MEMBER-ALIGNED · NRECA
SUPPORTING MEMBER

What 837 co-op CEOs asked us about AI last quarter.

"Is it safe?"

We explain the risk model and the SOC 2 + NERC CIP controls in plain English. No jargon, no slides.

"Will it replace our people?"

We show how AI augments your crew, not eliminates it. Field examples from co-ops already piloting.

"Where do we start?"

We help you pick one use case that pays for the next one. Production in 90 days, not 18 months.

BOOK A 30-MIN BRIEFING →

Vitaly Gariev / Unsplash

Mood: trusted-advisor, editorial. Cream + navy + red + one gold accent. **The italic red questions** + the rounded red CTA button are the punch. **Print risk:** 3-column body at half-page is tight; if 12pt is too small at press, collapse to 2 columns.

YOUR FEEDBACK ON MOCKUP 2

- ☐ **Make this the finalist** ☐ **Keep, push to production** ☐ **Keep with edits** ☐ **Drop**

Swap a question, change the CTA wording, tighten the body, change the count from 837 to something else...

MOCKUP 3

7 Minutes (Outage to Insight)

SUGGESTED: RHP opp. G&T Focus

RED ELEMENT: Oversized "7" numeral fills the left third

The mockup is a dark-themed advertisement for Colaberry. It features a large red numeral '7' on the left, followed by the word 'MINUTES' in white. Below this, it says 'OUTAGE REPORT TO ROOT CAUSE. AVERAGE ACROSS 6 CO-OP PILOTS.' The right side of the ad has a background image of power lines at sunset. It includes the title 'COLABERRY OUTAGE INTELLIGENCE' in yellow, followed by the headline 'From outage report to root cause - before the truck rolls.' in white. Below the headline is a paragraph: 'SCADA-aware. Crew-aware. NERC-aware. Sits on top of your existing OMS - no rip-and-replace. Six co-ops in pilot, two in production.' At the bottom, there are three yellow statistics: '93%' for 'PATTERN MATCH RATE', '\$0' for 'NET NEW INFRASTRUCTURE', and '30-day' for 'PILOT STANDUP'. The footer includes 'See it live at TechAdvantage 2026 · Booth TBD' and the 'COLABERRY' logo. A credit line 'Matthew Henry / Unsplash' is at the bottom right.

7
MINUTES

OUTAGE REPORT TO ROOT CAUSE.
AVERAGE ACROSS 6 CO-OP PILOTS.

COLABERRY OUTAGE INTELLIGENCE

From outage report to root cause - before the truck rolls.

SCADA-aware. Crew-aware. NERC-aware. Sits on top of your existing OMS - no rip-and-replace. Six co-ops in pilot, two in production.

93%
PATTERN MATCH RATE

\$0
NET NEW INFRASTRUCTURE

30-day
PILOT STANDUP

See it live at TechAdvantage 2026 · Booth TBD **COLABERRY**

Matthew Henry / Unsplash

Mood: McKinsey + ABB. Confidence through numbers. Charcoal/black background is the high-contrast move (most other utility ads will be white). **The red "7"** is the eye-magnet. **Print risk:** dark background uses more ink budget at press - confirm with magazine.

YOUR FEEDBACK ON MOCKUP 3

- ☐ **Make this the finalist**
☐ **Keep, push to production**
☐ **Keep with edits**
☐ **Drop**

Change the number (7 -> 5? 10?), adjust the metric callouts, kill the dark background and go cream, swap the CTA...

MOCKUP 4

SUGGESTED: RHP opp. Co-op Forum

RED ELEMENT: Full-width red bar at the top + accent line

Five Platforms (Catalog)

FIVE AI PRODUCTS · BUILT FOR COOPERATIVE UTILITIES

RUNS ON YOUR STACK · ON-PREM OR CLOUD · SOC 2 + NERC CIP

Logan Voss / Unsplash

Pick the one that solves your sharpest pain. Use the rest when you're ready.

All five run on your stack: on-prem, AWS, Azure, or GCP. SOC 2 + NERC CIP documented. No model training on your data. Pilot in 30 days.

colaberry.ai/co-op-platforms

David Lahme · 603-828-6265

NRECA MEMBER

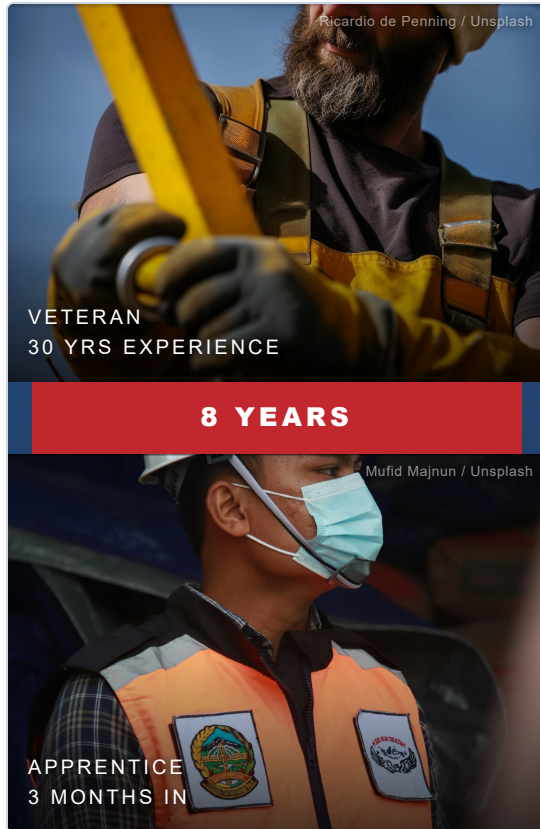

Mood: tech catalog, scannable. **Top red bar** is the eye-catch - readable from across a desk. **Print risk:** 5 tiles at half-page = each tile is ~120px wide; icon + name + 1-line desc only. If we feel cramped at press, drop to 4 tiles.

YOUR FEEDBACK ON MOCKUP 4

- ☐ **Make this the finalist**
☐ **Keep, push to production**
☐ **Keep with edits**
☐ **Drop**

Different platform names, different icons (no emoji - real symbols), drop to 4 tiles, change top bar text, kill the NRECA badge...

40% Workforce Crisis

40%

of your linemen retire in 8 years.

What's your transition plan?

Crew Capture turns voice + photo + GPS in the field into searchable repair playbooks indexed by equipment model, fault type, and crew lead. New crews pull up "how Roy fixed it" in 8 seconds.

[SCHEDULE A 20-MIN WALK-THROUGH →](#)

colaberry.ai/crew-capture · David Lahme, 603-828-6265 · NRECA Supporting Member

Mood: emotional + data. The split veteran/apprentice photos with the red "8 YEARS" gap label is the visual hook. **40%** in oversized red is the eye-magnet. **Photography risk:** needs commissioned shots (real co-op crews) or NRECA archive - stock will feel hollow. **If we can't get photography:** swap left half for typography + the 7 cooperative principles list.

YOUR FEEDBACK ON MOCKUP 5

☐ **Make this the finalist** ☐ **Keep, push to production** ☐ **Keep with edits** ☐ **Drop**

Different statistic, photography direction, change Crew Capture to another product, rewrite the headline...

OPEN QUESTIONS FOR THE PRODUCTION ROUND

- **Photography path:** Mockup 1 + Mockup 5 both call for real co-op crew shots. Options - (a) commission a half-day shoot at a local co-op, (b) license from NRECA archive, (c) substitute with typography-only versions if no photos available by Thursday.
- **NRECA Supporting Member badge:** can we use it? David's earlier "Independent. Member-aligned. NRECA Supporting Member" pre-head only works if so.

- **Gold tier commitment:** the 50% ad discount requires Gold (\$9,500/yr). Without it the half-page is at sticker. Ram - need a yes/no.
- **QR code:** mockups 1 and 4 have implicit URLs. Want a QR on any of them?
- **Stats verification:** "837 co-op CEOs" (M2), "40% retire in 8 years" (M5), "93% pattern match + 6 co-ops in pilot" (M3) - confirm before press or soften to round numbers.
